

Improving medication safety for inmates: Drug self-management course for inmates of Bade minimum security Prison

Bade minimum security Prison, Agency of Corrections, Ministry of Justice held Propaganda on Medication Safety in June 2025

In order to improve the medication safety of inmates, the Bade minimum security Prison, Agency of Corrections, Ministry of Justice, started in March 2024 to strengthen the health education awareness campaign for inmates with chronic illness refill prescription, and assisted the inmates through the "Medication Reminder Box" Understand your own medication safety.

During the medication safety promotion in June, the inmates participated in previous courses and gradually established the concept of medication safety.

It is expected that under the guidance of health education, better independent drug management results will be achieved.

Date : 2025. 6. 20
